CORE SKILLS

Python | React | Node.js | HTML | CSS | JavaScript | TypeScript | SQL | Git & GitHub | REST APIs

QUEST LOG

Curious by nature.
Learning by building.

01 / PROFILE

Building ideas into experiences.

I'm Ketan, a student exploring web development and creative technology. I enjoy turning ideas into interactive experiences and learning by making projects that people can try.

02 / PROJECT EXPERIENCE

Portfolio

PORTFOLIO PROJECT

Interactive retro adventure portfolio

Designed a playful campus map where visitors explore different parts of a student portfolio through mini-games and missions.

HTML | CSS | JavaScript | Game UI

Explore CGC

OPEN-WORLD GAME

An open-world campus exploration game where players can freely roam around CGC University, explore its surroundings, and take part in activities.

Hackathon Project

AI INNOVATION

A hackathon project focused on AI innovation.

QuizN

QUIZ APP

A small quiz application for taking short quizzes.

CoderXHub

DEVELOPER COMMUNITY

A small community site where developers can share, post, and download reusable website templates.

HeWrites.blog

STORYTELLING BLOG

A blog for storytelling, personal writing, reflections, and ideas.

Clarifake

AI MEDIA ANALYSIS

A website concept for examining whether photos, videos, or audio may be AI-generated. It analyzes visual signals such as pixel intensity, checks for matching media and source context on the web, and returns a confidence score.

bhagwayehind.in.net

HISTORY BLOG

A blog and website about ancient India and its history.

And many more…
